

# 2012 Cub Scout Events

at the

## National Great Rivers Museum

in Alton, Illinois

### January 14<sup>th</sup> Cub Scout Eagle Program

This program will teach scouts about why there are so many eagles in the area during winter. They will also learn how to spot eagles in the wild, learn about the Mississippi Flyway migration path, and different features that make the Bald Eagle different from other birds. There will also be an up close viewing of a live Bald Eagle in the museum.

### May 26<sup>th</sup> Cub Scout Conservation Program

This program is will help Scouts learn about what conservation is and how they can help out. This program will help fulfill some requirements for the World Conservation Award. A conservation project can be scheduled to help fulfill the requirement.

### June 16<sup>th</sup> Cub Scout Engineering Program

This program will introduce the Scouts to the world of Engineering. The scouts will learn how to measure like a surveyor, build bridges, draw plans, and much more.

### July 7<sup>th</sup> Cub Scout Fishing Day

Come enjoy the great outdoors with a fishing day. The scouts will get to participate in fish identification, a casting competition, fish catching contest, and much more. Bait will be provided along with a limited number of fishing poles.

Call Brandon for more information or to reserve your spots at 618.462.6979 or by e-mail at [Brandon.R.Beckemeyer@usace.army.mil](mailto:Brandon.R.Beckemeyer@usace.army.mil)

All events include hands on activities. Donations can be made to the Meeting of the Rivers Foundation to help support future programs at the National Great River Museum.
